Introduction

2024 has been an exciting year for Make Your Mark. It was the first vote held since 2022, the two year approach providing Members of Youth Parliament with sufficient time to campaign on their chosen priority issue. Facilitating the vote for this year, as every year, would not have been possible without the ongoing support from dedicated Local Authority workers across the UK.

We are immensely grateful to the young people who took part, the schools, colleges and youth groups who supported the process and our funding partner, the Department for Digital, Culture, Media and Sport. We would also like to thank the Centre for Youth Impact, who have helped facilitate the consultation.

Finally, we extend our gratitude to our Steering Group, who have guided this new process from start to finish seamlessly. Without their dedication and tenacity, Make Your Mark would not be possible.

YOUTH POPULATION CHANGES

The UK Youth Parliament uses population figures from the Office for National Statistics's Population Estimates. Outside of the Census, which is collected every 10 years, this gives the best available picture of the population. Using figures from the Office of National Statistics ensures a single and consistent approach across the whole of the UK; though BYC recognises that these figures can differ from those collected locally.

Make Your Mark uses broad voting themes to allow newly elected Members of Youth Parliament to conduct localised research, better understanding how an issue impacts upon the communities and people they stand to represent. This approach enables young people to have real ownership on the issues they choose to tackle.

The Centre for Youth Impact has supported the delivery of Make Your Mark 2024, and will be working alongside the British Youth Council to garner insight into the results of the vote. This project seeks to generate data and insight into what types of youth voice activity are happening across the UK, and who engages in this activity.

*As part of the voting page on the website, young people were asked to provide a full postcode. This was then used to allocate their vote to the relevant Local Authority. Where only part or an inaccurate postcode e.g. an O was used in place of a 0 (zero), it has not been possible to allocate these votes to the Local Authority. In order for these votes to still count, they have been grouped together.
